BRAUN NovoScan 3-in-1

With the BRAUN NovoScan 3-in-1, you cannot only digitize your slides and negatives, but also scan your paper photos. You easily can process any photo up to a format of 13 x 18 cm. The NovoScan 3-in-1 includes a 2.4'' LCD-Display, a SD-card slot, a TV-Out interface and an internal memory of 32 MB. This makes the NovoScan 3-in-1 to a Stand-alone device. No Computer required. The unit has got a resolution of 5 mega pixel which is equal to 1800 dpi and has got a colour depth of 30 bit. The very fast scanning speed of 1 second is achieved by using a CMOS-sensor.
